Kind Attn: Mr. Anand

Sub: Letter of Appreciation

Dear Sir,

We are happy to inform you that we have completed the last financial year 2007-08 with the highest ever volume and value of despatches from our factory and also from our suppliers.

V.K INDUSTRIES are one of our new suppliers introduced in mid 2007 for supplying precision CNC turned and VMC machined parts to Oliver Valves. Starting from just one component your company have till date successfully developed and supplied more than six different critical parts to our factory. This is no ordinary achievement considering the fact that very few suppliers have been able to achieve this feat in such a short span of time. This has been realized only because of your team's sincere dedication, engineering aptitude, competitive pricing, flexibility and quality oriented approach to meeting customer requirements. We congratulate you and your team on this remarkable achievement.

Your On-time Delivery on supplies made to our Indian facility over the last 9 months has been above 95% on an average and Quality Performance has been 99% on an average.

Also you have been consistently increasing your capacity for us to serve us on high volumes and in the process, you have become the only vendor who has been able to supply critical valve manifolds consistently. You have also done your first export in February 2008.

We are proud to have you as one of our suppliers and with your right and positive attitude, this association will only continue to improve to witness our businesses grow mutually complimenting each other.

We are sure that you will maintain the same level of performance and even endeavour to improve the same to much higher standards in the years to come.

Best regards,

Yours sincerely,
For **Oliver Valves India Pvt Ltd.**,

T. Vinodh Gopinath
Manager - Supply Chain
